Dublin 22nd—The *Irish Times* says that Earl Brownlow has accepted the post of Viceroy of Ireland.

Paris 22nd—The Count de St. Foix, French Minister in Uruguay, has been transferred to Mexico.

The Boulangist papers insist that the departure of the General from Brussels does not amount to his expulsion from the country. The *Presse* admits that he got a warning from the Belgian authorities, but that he will return in a few days. The Gaulois says he has gone to London to amuse himself for a while, and will return shortly. According to the *Independence Belge* and the explanation published by Count Dillon in the *Dixneuvieme Siecle*, it would seem that Boulanger only decided on leaving Brussels after he had been told by the Minister of Justice that the Belgian Government wished him to leave. This would not, strictly speaking, be expulsion, as if he had received and official notice to the effect that the Government would not allow him to continue to intrigue against France on Belgian soil. It appears certain that he will for the present go to England, where there is safety for all political refugees; and in going the e he will not require to look out for a fresh abode. It is curious to hear it said that Boulanger, who is an opponent of everything parliamentary, is forced to take refuge on the classic soil of Parliamentarism. Perhaps his visit to England will convert him to the prudent and pacific form of parlimentary government there prevailing. His party think he will be in a more difficult position in England than in Belgium. Frenchmen dont like travelling by sea, and his having to cross the Channel will appear a formidable affair for many of his admirers. It is possible that sea-sickness may cool his enthusiasm and make his visits to England less frequent.

Melbourne 22nd—The Bijou Theatre has been burned down.

Olimpia much more badly damaged and aground at Punta Arenas. Her passengers have been taken off.

MEETING OF MERCHANTS.

Yesterday a second meeting of City Merchants was held at the saloons over the Cafe de Paris. The attendance was much larger than yesterday, and it was quite evident that if the parties who took the initiative had published notices of the meeting in the papers, no saloon in the city would be able to accommodate the crowd. In fact, the only place to hold such a meeting would be the Plaza Victoria as the whole commerce and population of Buenos Ayres, if we except the Bolsa and a few banking houses, are in favor of Minister Varela and his most successful measures to put a stop to the unbridled gold gambling at the Ring.

Mr. Mantels presided, and in a terse and excellent speech addressed the meeting. He read the note to the Minister of Hacienda, which had been drawn up by Dr. Tarnassi, expressing to H. E. the entire approval by the commercial community of the measures adopted to stop the gold speculation. The note met with unanimous approval, and then the chairman suggested that there were three points to decide:

1st—The mode of obtaining signatures.

2nd—The parties to obtain said signatures.

3rd—The modus operandi of presenting same to the Minister.

Mr. Paats, formerly Dutch consul, proposed that copies be left at certain fixed places, where parties could call and sign the paper. He suggested that a copy be placed in the National Bank.

Sr. Guillie of Bemberg & Co. proposed that the members present should take a copy each and obtain the signatures of their neighbors.

Sr. Mendez thought that sufficient copies should be printed and the members present take charge of them to obtain the signatures.

After much conversation it was decided to get Mr. Mackern who was present to print the document, and Mr. Mackern promised to have the papers ready for destribution at 1 o'clock to-day.

With regard to the 2nd point it was agreed to place one copy of the Resolution at the National Bank, with a request to the President of the Bank to allow a clerk to attend to getting signatures; and with respect to the 3rd point, it was decided that the papers with signatures are to be delivered on Saturday to Mr. Mantels either at his private house, Calle Florida 723, or at his office, Calle Victoria 1041, Fabrica de Calzado Nacional.

It was decided to adjourn the meeting to Monday at two o'clock at the same place, saloons of the Cafe de Paris, and all present were invited to attended to proceed in commission to the Government House on Monday at that hour to wait on the Minister with the resolutions and signatures, and should the day or hour be inconvenient for the Minister due notice would be published in the papers, but if no notice appeared in the papers, then members would know that 2 o'clock on Monday was the appointed hour. The meeting then rose.

PATAGONIAN GYPSUM.

RIO NEGRO CEMENT.

AN INDIAN TURNED INTO CHALK.

With much pleasure we make room for the following letter from Major Mistre, Surgeon in the Argentine Navy. He calls attention to one of the most promising industries in the South, and from personal inspection and experience we can vouch for every word in his letter. The day is not distant when the Portland Cement and foreign gypsum used by the builders of Buenos Ayres will be entirely supplanted by a cheaper and quite as good an article from the Valley of the Rio Negro. The quarries of gypsum are extensive and yield ten tons of cement and chalk to the square superficial yard. About 100 workmen are engaged on these quarries, and a joint stock company with a capital of a million dollars might be formed to work the quarries and the neighbouring salt mines; but more of this anon. Meantime, we append Dr. Mistre's letter:—

Patagones, 15th April, 1889.
On board Villarino.

To the Editor of the *Standard*.

My dear Friend,

Let me avail of the columns of the *Standard* to call attention to a rising industry of these regions. The other day I received a polite note from Mr Napoleon Papini to inspect the quarries of cement and chalk which he is working in the vicinity of Patagones, at a distance of about thirty kilometres from the mouth of the river. These quarries are situated on the very edge of the left bank of the Rio Negro, and some of the principal excavations are being carried out within a stone's throw of the water. The surroundings are hilly and picturesque, and, for a wonder, in this indolent valley one sees on all sides the proofs of activity and hard work.

Thanks to Mr. Papini, who began these works under great difficulties as far back as 1884, the valley of the Rio Negro can look forward to an industry with promise of great development. But Mr. Papini's efforts would have succumbed but for the timely aid of Buenos Ayres capitalists, who advanced the money to turn out the raw material in the Rio Negro and started a factory in Buenos Ayres in Calle Caseros No. 834, to turn same into a marketable commodity.

The Rio Negro quarries turn out lime, cement, and chalk, which are calcined and prepared in the B. Ayres factory. These raw materials turn out Roman cement, hydraulic lime, Portland cement, and plaster of Paris of several qualities.

The cemeat quarry is situated on the North bank of the river; the layer is horizontal, 60 to 70 centimetres thick, a frontage of 500 to 600 metres on the river, and of unknown depth. Mr. Papini made soundings that prove to a certainty that the layer stretches over 300 metres inland. The layer, furthermore, is only from three to six feet from the surface.

The limestone layer begins at a distance of 15 kilometres from the mouth of the Rio Negro and stretches away for hundreds of kilometres. The layer is of unequal thickness, the minimum being one centimetre. The layer, at present worked, has a thickness of 10 to 15 centimetres.

The chalk quarries are by far the richest and most profitable. Two quarries are being worked at present: one in the Tres Cerros, about 25 kilometres from the mouth of the river, and the other at F. Leon's property, about 40 kilometres distant. At present about 80 to 100 men are working in these quarries. The company own two vessels, Neptuno 250 tons, and Isidora Biouda, 400 tons: both load at the very foot of the quarries and carry an aggregate of 250 tons of cement and chalk to Buenos Ayres every month. Before long more steamers will be purchased by the company, as the business is increasing rapidly.

In connection with this subject I shall refrain from any further considerations, but let me mention a letter I received from Mr. Papini last week, accompanying a chalk bust of some Patagonian Indian which I shall send to Dr. Burmeister as a curiosity, a kind of freak in the chalk formation. Mr. Papini found this chalk bust at the Carreta Quebrada, 145 kilometres from the mouth of the river; it was imbedded in a kidney-shaped layer at a depth where the crystals are of a more perfect appearance. The layer is about 30 metres above the level of the river.

Knowing the great interest you have always taken in all matters affecting the progress of the Rio Negro, I feel sure these rough notes will find hospitality in your columns and call the attention of capitalists to a source of wealth that has lain hidden for so many years and within the reach of moneyed enterprise. This industry may still work wonders for this distant, abandoned, but beautiful and prolific part of the Argentine Republic.

I seize this opportunity, etc.

Yours truly,

J. A. Mistre.

PARIS LETTER

(From our own Correspondent.)

March, 19.

The Comptoir d'Escompte is to be re-established, and under a new title. But will that restore lost confidence and recoup the innocent shareholders, who believed themselves protected by the statutes of the institution and the ægis of the government? It would have been an error, all things considered, to have suddenly wound-up the Comptoir as bankrupt. It has some millions of scrip, belonging to home and foreign enterprises which, if suddenly brought to the Bourse-hammer, would have involved a terrible smash. The case of the "Union Generale" Krach is pertinent. By according time, its collateral securities were worked off at remunerative prices, in the end.

But the Comptoir's Council must not be shielded from the consequences of neglect of trust and unobservance of the statutes These gentlemen receive indemnities, following their "jetons" of attendance. The suicide of the General Manager, M. Denfert, is not the expiatory sacrifice the shareholders demand. The safety of the establishment, its probity, its honor, were not carried in the pocket of the head director. The Comptoir, by its statutes—and in France these are models of correct drafting, only they are too often honored in the breach—was precluded from lending money for a longer period than ninety days, and never for more than two-thirds of the real value, on merchandise warrants. It was also subjected to the general obligation of all companies, that when the half of the capital has been lost, the enterprise must be wound up.

Now the Council, since the shares have been tumbling from frs. 1080 to frs. 200, has never given any explanation to the shareholders. To this day, no one, save the initiated and the "ring," is aware of the nature and the extent of the liabilities of the Comptoir. It has lodged all its securities of bills, stocks, and shares, with the Bank of France, for advances, to keep the doors of the establishment from being closed in the face of depositors—the latter have all left for the Bank of France, and the charmer has not been born that can whistle the scared multitude back. But what way can the liabilities of the Comptoir be met, for rumour says that it has been hit in other speculations beside copper. How will it, for example, regulate with the Cape Copper Mines, whose Board has publicly stated they had sold the out-put of their mines till 1891, at a fixed, and now a fancy price, per ton, and their contract was backed by the Comptoir d'Escompte, which was in turn backed by the State.

The shareholders are been abominably treated, and their losses are the more terrible as thousands put all their money—all their eggs in the one basket—in the Comptoir, convinced that no disaster could wreck that Colossus of probity and prudent management. Even up to 31. January last, the annual report represented the Comptoir as still the pet of fortune, when it was existing over a yawning abyss. Not a word was said of the wild-cat proceedings of the directors in plunging the capital of the bank into a Will-o'-the-wisp speculation, certain to collapse, as it has done. The directors must be made to bleed for their connivance at the violation of the statutes, and the bank's securities and the government looked to for indemnifying the fortunes scattered to the winds.

The Comptoir had some fair agencies in foreign, in colonial lands, doing an aggregate annual business, figuring to 4½ milliards, and realizing about 4½ millions frs. of profits. The Agencies will hardly recover from the seismic blow given to what was considered the first and best of discount, or financial French establishments. English, and perhaps a few German houses, will pick up the succession, so it is a bad wind that blows nobody good. The crash has had its effects on many banks here where depositors are quietly calling in their money. Victor Hugo was only a poet; but he was a shrewd one. He confided all his fortune to English and Belgian bankers, nor have his trustees made any alteration in the lodgment of the wealth.

Political life is fast in France. Within the last few days a new "ism"—"Liberal-Unionism"—has been born and buried. It was composed of all the political sucked oranges of the country, who wanted to steer clear of the Republicanism of the Ministry, that is of the Chamber, of Boulangism, of royalty, of empire, and *quandum vis*. Nearly all the Good Samaritans had, during the last ten years, a finger in the Government of the Third Republic, and now, in presence of the ship among the breakers, they want to be handed the pilotage again. France demands no such life-boat's men. The nation has now taken the matter into its own hands. It will give all round rope enough until next spring, when the voters shall pronounce the supreme, "Peace, be still," to the discontent so general, and to the material suffering so real.

As for the prosecutions, or persecutions, of the Boulangists, the Government, in pursuing such tactics, but adds to Boulanger's success—for the General is the syndicate of the unsatisfactory situation. Except to look on with pity, or to roar with laughter, no one feels interested in these charges and counter-charges: in these small tactics of a party in power, which is out of touch with the nation. The banquet given to General Boulanger at Tours, the triumphal welcome and ovation there given him can leave no doubt among independent and impartial minds that he will be the man of light and leading at the general elections. His programme speech—this time, at all events, left nothing to be misunderstood. He agitates, not for a king or an emperor, but to clear away the present monopolists of the Republic, and asks the nation to return deputies who will constitute an open and conservative republic, where religious freedom will be a reality, and coterie persecutions unknown.

This speech has produced a very profound sensation, and a most serious impression. Short of recalling the exiled religious orders, like the banished Duc d'Aumale, and returning the nuns to the management of the hospices and hospitals, the Ministerial republicans cannot eclipse Boulanger. They must out-bid his "planks" The mon archists, of course, do not like Boulanger's uncompromising republicanism, but as it will banish no one, nor make religious belief a crime, they will back him till fortune favors their hopes—or rather chimeras, for the prospect of the restoration of a king or an emperor is as distant as the Greek Calends. It is estimated, seeing the temper of the nation, and the last move of Boulanger, that the latter's party and the monarchists will succeed in having a trinity majority in the new Chamber. That is, two-thirds coalition and the one-third mixed republicans, including a few specimens of the present Chamber. When the new Ministry shall be constituted, General Boulanger must enter therein as Minister of War; as civilian, if you will, for a few hours, as the first act of the Cabinet will be to restore him to his rank in the army. How will President Carnot stomach that situation? Then comes the revision of the Constitution. Only then will General Boulanger's programme be known.

Mr. Cristobal Botella of Madrid has had his work on Spanish emigration "conned" by the Royal Academy of Moral and Political Sciences of Madrid. He concludes that emigration in general constitutes a social and economical vice; that it ought to be combated, indirectly, by suppressing its cause, and, directly, by limiting it, while respecting liberty of travel. For his country—Spain—he considers it to present very serious dangers. The problem of emigration, Señor Botella concludes, would be, if not checked, a mortal wound to Spain. Argentines, then, need not expect many off-shoots from the ex-Mother Country.

Señor Fernandez is the Mexican Minister to France. In a work which he has just published, he labors to prove by figures that France never was more prosperous than at present. Alas! if the French themselves could only perceive around them the proofs of that arithmetical prosperity. He dilates, in the text, of Latin race-planting. This to the French, from a Mexican, must appear in the light of a practical joke. The French have not forgotten how President Juarez interpreted the Latin race-planting, when Napoleon III. and double ex-Marshal Bazaine undertook the experiment in Mexico, as the gardeners in charge.

LATEST FROM MONTEVIDEO

(From the River Plate Times)

Montevideo, 20th.

The Statutes of the Marine and Land Insurance Company "La Mannheim" founded in Mannheim, Germany, capital 8,000,000 marks, in 8,000 shares, have been registered in this country and approved by the President and Minister Varela at the request of Messrs. C. Brandes & Co.

The Statutes of the Limited liability Company "Cabaña del Paraiso" have been approved and published.

Their object is to establish a Cabaña in Rio Negro, within 8 leagues of a railway, for the improvement, development and advance of cattle farming in general, as well as agriculture, and the planting of trees etc. Capital $300,000 in 3,000 shares of $100 each.

The small loan Bank called "La Caja Nacional de Pequeños Prestamos y Descuentos," which we reported in our last as about to be wound up, has offered its shareholders the amount of their paid up shares for those of the new Company, on somewhat similar lines, which has been started in place of it, called the Caja de Credito del Uruguay. It appears that almost all have chosen the latter alternative.

To-day this active Banking Institution commences payment of the three per cent provisional dividend corresponding to the first quarter of this year.

Before the end of the month, the first service of the Cuotas de Amortizacion Debt will take place. This should have been effected on the 8th, but the shares had not been prepared. The service will be on $700,000, the amount issued up to the present, and at the rate of 6 o/o per annum.

The Statutes of the Limited liability Company Banco Italo Oriental were presented to the Government on the 17th for modification. The promoting syndicate is formed of Messrs. Carlos Casaravilla, Jose A. Martinelli, Antonio Piaggio, Felipe Montero and Ricardo Sienra.

On Monday the syndicate will meet to appoint the first Board of Directors and arrange for the installation of the Bank, which it is asserted will take place in a few weeks.

The Judge of Commerce has sent a note to the Post Office ordering the detention of all correspondence relating to Dr. Reus.

During the first fortnight of this month with only 12 working days, there have been 304 sales of property registered in the General Register.

The Rowing Club is at last in working order, their boating house being duly installed and the members practising hard for the inauguration, which was postponed on account of the death of their Hon. Secretary Señor Alcorta.

On the 16th the Junta presented their Budget for the year 1889-1890 to Government for approval.

Expenses are set down at $643,414.00.

The Municipal Loan fund absorbs $435,000.00.

The resources of the Junta to meet these expenses are calculated at 1,154,480.00.

This leaves a balance of $76,066.00 which added to the funds from the Municipal Loan disposable by the Junta during the same period form a total of $5,036,723.90.

It is said that General Tajes will leave Montevideo for Buenos Ayres on the 20th of next month to return President Juarez Celman's visit.

He will be away six days duly authorised by the General Assembly in accordance with the Constitution.

Preparations are already being made both here and in Buenos Ayres, and the lists of those to be invited are also being made out.

When President Tajes lands in Buenos Ayres he is to find a division of about 3200 men on parade ready to receive him.

The troops will include the cadets of the naval and military schools, the pupils of the school of sergeants, the engineers, the 1st artillery, six battalions of infantry, and the 11th regiment of cavalry. This force will be commanded by the General of Division, Nicolas Levalle.

All these troops are to receive new gala uniforms before the end of the month.

The artillery will form with 24 Krupp guns, and the engineers with their campaign arms, picks, shovels, hatchets, etc.

Messrs. Piñeyro and Lussich have contracted to lay down the first lot of 200 squares of the "adoquinado," which is to be extended throughout the entire city, as we have already mentioned. In accordance with the plans this will be a very superior work, and will wonderfully improve the appearance of Montevideo.

Already 4 or 5 squares, from the port to the port market, are finished. Messrs. Piñeyro and Lussich have contracted to finish complete lot in 14 months. The work is giving employment to more than 300 men.

A party of French capitalists, merchants, and representatives of the press came over on Thursday, from Buenos Ayres in the Silex, and being joined by a similar party here, who had met together at the store of Messrs. Vanrell & Co. in Calle 25 de Mayo, they all proceeded to Maldonado with the avowed object of inspecting the oyster beds and deep sea fishery of the Fishery and oyster-culture Company established in Maldonado by Argentine capitalists, capital $200,000 and of which Sr. Julius Boet is the managing director.

The Maldonado district is attracting a great deal of attention since it has been known that the railway from here to the Lago Merin, via Maldonado, San Carlos and Rocha will so soon be commenced, as we announced a few numbers back.

When completed this railway will be of vast importance to this hitherto much neglected neigbourhood leading to the disclosure and working of the latent mineral wealth with which the department abounds, comprising copper, silver, limestone and various sorts of marble, much needed in this city for building and ornamental purposes.

On Monday last the national schooner Santa Ana ran down a steam launch belonging to H. M. S. Swallow.

The launch, which it appears was moored to a buoy belonging to the Brazilian line of steamers, and lying astern of the Swallow, was in charge of Samuel Bailey, a well qualified seaman, who it is supposed, must have been stunned or injured by the shock as, though a fine swimmer, he did not appear on the surface of the water. His body was recovered yesterday.

THE BRITISH COMPANY ACT.

LIMITED LIABILITY OF SHAREHOLDERS IN ENGLAND.

(By One who Knows.)

To the Editor of the *Standard*,

Sir,

Latest advices from home shew that we may expect during the present Session of Parliament to see the new and much-talked-of, greatly needed and too long delayed Bill for regulating the formation and floating of Joint-stock Companies come to life.

This new law will be hailed as a boon by English investors, and its influence on investments, particularly in industrial undertakings, will be so great that it must materially affect this country, which, although progressing with giant's strides, still offers an enormous field for industrial enterprise.

It may therefore be of interest to some of your readers to get an insight into the present state of things at home and the new measures which will be adopted to do away with what has been openly recognised as a blot on English legislation by the Suez Canal, or other good ground given by the promoter at the allotment meeting, the Directors agree to allot if the company can have £40000 working capital left after completing the purchase (instead of £40,000) as instead of building or purchasing working premises they can rent them and begin work all the sooner, which is all for the benefit of the shareholders.

The contracts are now modified all round (which is quite within the powers of the Directors) and the original vendor gets about £100 in cash and £900 in shares. The advertizing agent and printer are obliged to take shares for their profits etc., and the net result is that the promoter has about £2000 hard cash profit, and, if he has been very liberal, perhaps *only* 40,000 shares.

The company has then got a nominal capital issued of £64,000, of which, 10,000 shares are held by the public and 54,000 by the vendors or their representatives, so that in a concern with an actual cash capital of £4000 the bona fide shareholders possess a little less than one sixth.

As a matter of course, at first all energy is gone, as the Directors want a complete rest after the exertion of making these various modifications, and nothing is done till the period comes for drawing directors' fees, salaries, petty cash, expenditure for luncheon, travelling etc., till one day a clever opponent finds out that there is a flaw in the patent, and after 2 years legislation the company is wound up or perhaps reconstituted, when the same game can be played once more.

THE BATIGNOLLES PLANS—MESSRS. LUCAS GONZALEZ & CO.—SNAG-UP IN ROSARIO—THE B. AIRES PORT WORKS—AN AERIAL RAILWAY—SANTIAGO DEL ESTERO AND THE RAILWAY BOARD—DEATH ON TWITCH-BACK RAILWAYS

The Board of Public Works sent a note to the Government yesterday approving the plans and estimates of the Societé de Constructions de Batignolles for the construction and Working of the North-West Argentine Railway from Villa Mercedes to La Rioja.

The Home Minister sent a note yesterday to the Board of Public Works announcing that during the absence of Messrs Lucas Gonzalez and Co., Messrs. B. Villanueva and M. Ugarte have full powers to sign for them.

In view of the incredible snag-up in Rosario, arising from an accumulation of goods and produce, Messrs. J. C. Meiggs, Son & Co. have requested permission from the Home Minister to discharge their materials at the mole Guillermo Martin. The Revenue Office advises the Government to give the permission requested.

Owing to certain extensions in the port works, much beyond the original plans, the inspecting engineer of the Board of Public Works has applied for an increase of personnel to look after the new works which are being carried on at several different and distant places.

Mr. A. Sidebottom and Mr. J. C. Gibson have applied for a ten years' patent for an aerial railway which will carry passengers and produce and may be turned to account as a switch back diversion for children and others. The charm of the patent is that there is no danger in this kind of ballooning.

The Governor of Santiago del Esterio has advised the Chairman of the Railway Board that his employees may rely on the support of the Santiago police force to carry out his orders. This sounds stiff.

Messrs. Gonzalez and Co. have handed the Public Works Board a cheque for 20,000$ to pay for expense of technical inspection of the lines they are constructing.

Mr. Medici has applied to the Home Minister to dislodge the the switch-back railway in the Recoleta. It appears that this popular means of diversion is situated on ground belonging to the City Improvement Works.

The milesge of the Northern Railway during January was:—

	Kilom.
Locomotives	95,788
Carriages	319,178
Waggons	86.222
Total	501,188

The receipts and expenses of the Pacific line in February were:—

	$
Receipts	117,694.58
Expenses	92,541.47
Net Receipts	25,153.11
Ratio of working expenses	$78.63
Net receipt per kilom.	34.72

Dr. Araoz, President of the National Railway Board, sent a circular to all the railways yesterday, stating that unless some other light is at once substituted for kerosene in lighting the carriages, authority will be asked from Government to impose a fine of 200 dollars in each case of infraction.

We note in the *S. A. Journal* of the 16th March a vehement and uncalled-for attack on Dr. Araoz. Although we protest against the unmerited attack, we cannot help thinking that it proves Dr. Araoz's energy to have hit home. No doubt, railway-shareholders at home do not relish any interference in their little affairs out here, but we must in justice observe that the interests of the public are paramount and should be the first consulted. Dr. Araoz is the champion of the interests of the travelling-public, and it is much to be regretted that railway-shareholders dislike him. We may add, in conclusion, that Dr. Araoz has shewn his ability, not only as a railway-manager, but also in the high post which he at present holds. No better man could have been chosen for the post. He has all the requisite experience, to which he superadds an abundance of merciless energy, and above all he is not afraid to enforce the rights to which the travelling-public are entitled. People in London would do well to reserve their opinions, which at such a distance are necessarily bound to be not only partial, but extremely unjust.

EDITOR'S TABLE.

The Cotopaxi is safe. She anchored at Sandy Point yesterday, having collided with the steamer Olimpia in the Straits of Magellan. She was not injured. Our telegram from Valparaiso, in another column, does not say how the Olimpia fared, in the crush; but it is to be supposed that no lives were lost, or it would have been wired.

A large number of the British Community will learn with great regret the death of Mr. Frank E. Thicke, the Architect, which took place yesterday afternoon. His death was occasioned by paralysis consequent upon a severe fall experienced three weeks ago in the camp. The funeral takes place to-day at the British Cemetery at 4.30.

Mr. St. John is requested to call on the 'Administrador' of the STANDARD, who has received very numerous enquiries respecting the distressed family on whose behalf he inserted a notice in our columns: moreover, there is money galore lying at the disposal of the poor people; but Mr. St. John, not having been near our office to which he asked responses to be addressed, has only himself, and not the want of charity of the English-speaking community, to blame in the matter.

We received yesterday a note from Mr. Maxwell, of the Immigrants' Registry Office, 365 Calle Reconquista, requesting us to acknowledge receipt of blankets and clothing for immigrants from Mrs. Colhotorne; blankets and flannel from Mrs. Rhodes, and new and old clothes from Monsieur Brun, of the Ciudad de Londres store.

Holy Week must have disagreed with Galveston's man in Europe; otherwise, what is the meaning of spending money on bosh (see telegram column) about Boulanger being seasick in crossing the Channel. Frenchmen are bad sailors, no doubt; but the fact is too well known to need cablegrams across the earth to tell it. Besides, it is puerile.

We are glad to announce that Father Thomas Thornton, P. S. M., of the Irish College of Mercedes, has been ordained priest by His Grace the Archbishop of B. Ayres, Dr. Aneiros. He celebrated his first solemn High Mass in the parish church of Mercedes before a large congregation. A most pleasant day was spent at St. Patrick's College and a festive banquet was held to commemorate the happy event. Father Thornton will continue at his post in the College of which Father Petty is Rector.

By all that's scandalous! We hear that the too famous "repair ship" of the Argentine navy, the Rosetti, is to the fore again. This time, (about the 50th) no less than $100,000 are to be spent, to turn her into a floating lazaretto. Better blow her up.

We have received from our old friend Mr. Fielding of the English Bank of the River Plate a most delightful description of Orotava in Teneriffe, where we are happy to say he finds the climate to agree with him, and his health is much better. We hold for publication charming mems. of Teneriffe.

Some rascal or rascals unknown made off the other night with the charity box for the hospitals placed in the vestibule of the San Martin Theatre. A heartless and disgraceful theft.

A private note from a cricketing friend in Montevideo says:—"The youngsters of Mr. Ashe's English School gave an eleven of the Cricket Club a very respectable beating here on Good Friday, winning by 147 to 106 runs. Some of the boys will play splendidly later on, notably Master George Elliott, who is equally promising as a batter and a bowler. The boys were in great blood after their victory." Bravo! boys.

Whoever said last week that President Tajes meant to come here on a Cheap John scale was mistaken. He comes in exactly the same state as President Juarez went to him, accompanied by high officials, Senators, Deputies, the Lord Mayor of the Mount and several "jovenes distinguidos" anxious to enjoy the pleasures of the capital of South America. The whole B. O. fleet will escort the distinguished visitors up the river.

Yesterday the Parnell banquet committee held a meeting at 650 Calle Piedad. Mr. Thomas Duggan was elected president, Dr. O'Farrel secretary, with the following committee:—

Mr. John Hughes
Dr. Kehoe
Mr. J. Nelson
Mr. J. J. Murphy
E. T. Mulhall
Dr. Hanly
Dr. Murphy

The preliminary arrangements were agreed to, and it was resolved to give the banquet about the 15th May, so as to time it with the arrival of Mr. Dickson, Member for Dublin, who is expected out in the Atrato, and who is a personal friend of Mr. Parnell.

The ball-season in Rosario will begin on the 15th of next month. The players will not get any pay, but will be allowed 75 per cent of the receipts. In this way they may fairly be supposed to do their best all round.

The French Vice Consul in Rosario warns his countrymen in the commercial clerk line not to come to this country, as the "native" young men are, when they take to that branch, quite as competent any foreigner, even the German—the cleverest "per excellence". All other Consuls might and ought to report the same as their Gallic colleague in Rosario, to prevent disappointment to educated young men coming here without capital, or at least something to keep them afloat till they learn the language and the ways of the country.

Oh! Gracious! A telegram from San Juan says that the A. G. W. carriages are now lighted by means of candles stuck in bottles! This is not a very brilliant, clean or absolutely aristocratic way of making darkness visible in a railway coach, but it is far safer than kerosene lamps, witness the Bancalari horror and the accident on the Rosario line near Palermo on Monday.

Here's a hint for Lord Mayor Seeber, but, no doubt, as he is fresh from French capital, he already has heard something about it:—"M. G. A. Tabourin proposes to the Paris Municipal Council to fit each lamp post with are light dynamo and gas engine. He has contrived a dynamo of minute parts and a gas engine ten inches in diameter for coupling up with it. He would put a dynamo and gas engine at each post under each of the gas lamps, as is now present in that city, utilising the gas supply for feeding the gas engine. He shows by tables of cost and quantity, which says are correct, that far more light, in the form of electricity, can be had by the use of this product of coal applied to the dynamo than when the gas is directly used for light."

We had a note from "Humane" yesterday suggesting that the sufferings of

6000 hectáreas de campo en la Provincia de Córdoba Departamento de Union.

El miércoles 24 de abril á las 2 p. m en nuestra casa Alsina 482. Remataremos por cuenta y órden de su dueño excediendo la base de 10 ps. la hectárea, esta espléndida área de campo compuesta de 6000 hectáreas mas ó menos, ubicados en el departamento Union de la Provincia de Córdoba sobre la linea divisoria de esta Provincia con la de Santa Fé lindando con los renombrados campos de Loreto y Venado Tuerto á 8 leguas de a estacion Soler y Rufino, del ferrocarril al Pacífico, de cuyas estaciones hay caminos que conducen al campo á 10 leguas del pueblo Venado Tuerto, á 3 leguas del ferrocarril en construccion de Villa Constitucion sobre el Paraná á Venado Tuerto y la Carlota.

El ferrocarril concedido á los señores Pelleschi y Ca de la estacion Rufino á Villa Maria pasando por La Carlota quedará muy cerca del campo. El camino real de la Estacion Rufino á la carlota pasa por una esquina del campo. Como se vé el paraje no puede ser mejor y llamamos la atencion de los señores especuladores y capitalistas pues por su naturaleza, ubicacion y buena tierra es aparente para colonia, ó centro agricolas. Los linderos son al Norte Anastasio Castro; al Sud Salas y Carnadas, cuyo costado está alambrado, al Oeste con el establecimiento La Aurora de la viuda de Puyrredon: al Este con terreno fiscal de cómodo y la linea divisoria de la Provincia de Córdoba con Santa Fé; á un paso de la casa de negocio del señor D. Manuel Martinez. Agua dulce en todo campo.

El campo está medido y amojonado con grandes mojones de fierro. Sobre el terreno hay una poblacion de adobon con techo de fierro y 12 cuadras alambradas destinadas para quinta.

El pago se hará al contado el dia de la escrituracion que se efectuará dentro de los diez dias del remate en la capital federal. Títulos perfectos. En la estacion Soler habrá quien dará la direccion del campo. Por planos y mas datos á nuestra casa Alsina 482. Todo comprador abonará el 5 o|o al firmar el boleto.

Importante en nuestro casa San Martin 175, de 12,824 hetareas o sean 4 leguas y 1'000 cuadras cuadradas de campo de superior calidad en la Provincia de Cordoba departamento pedania de San Geronimo, perteneciente a la testamentaria de la Sra. Doña Luisa Wright de Gowland. Por orden de sus herederos todos mayores de edad, especial de situacion, campos reputados de los mejores, a 12 leguas al SS. O. de Belle Ville Media Nuerte y 3 leguas de la Carlota a donde puento llegara el ferro-carril de Villa Constitucion, en construccion que pasa por la orilla del campo, designado en el plano con el lote numero 79, serie 1, y conocido por el campo d Los Colzones.

Esta actualmente alambrado por los costados y arrendado cuyo contrato que concluye el Setiembre proximo espetara el comprador.

El campo por su calidad y variedad de pastos es de los mejores de la provincia, para la cria de las haciendas vacuna, lanar, etc., y por su calidad de ser quebrado, es de primer orden para la agricultura, pues sus granos pronto podran ser exportacos por una estacion que proximo al campo construira el ferro-carril, Sin base, al mejor precio; condiciones para el pago, muy ventajosas, 1|3 parte al contado el resto a 3, 6 y 9 meses de plazo con interes del 7 o|o al año, reduciendose a oro efectivo la parte de plazo al cambio del dia del remate.

El Jueves 16 de Mayo, a las dos en punto de la tarde se rematara a la mas alta postura con las bases arriba estipuladas y por orden de sus herederos todos mayores de edad, este importante y bien situado campo. Todo comprador abonara el 5 o|o al firmar el boleto. Titulos garantidos, por mas informes a nuestra case, San Martin 175.

J. Guerrico y Cia.
Ecepcional remate de terrenos
100,000 Varas Cuadradas
Sobre la Calle de Santa Fe
en Belgrano.

Terrenos notables por su altura que se elevan mas de un metro sobre el nivel de la calle.

Solares de todos tamaños, todos con frente a calles de veinte varas perfectamente abovedadas.

Dos esplendidas casas quintas en el terreno que iran por muertas.

Venta forzosa por division de condominio entre los Sres. Agustin Roca y Horacio F. Guerrico.

Base las cedulas o sea 1.50 pesos mas o menos la vara cuadrada, la quinta parte de su valor.

Para mayor facilidad de los compradores las escrituras matrices seran de cuenta de las vendedores.

El Domingo, 28 de Abril,
A las 2 de la tarde,

Venderemos estos esplendidos terrenos conocidos por quinta de Nuñez, por cualquier precio que exceda a las cedulas, por division de condominio, entrando por nuerta una esplendida casa con diez habitaciones, jardines, palmar, cocheras, etc., sobre la calle Santa Fe; otro precioso chalet de seis piezas, cocina, etc., galpones para caballerizas, etc., sobre la calle Nuñez; (esta ultima se ha hecho de lo jar para el dia de la venta y pagada de arrendamiento 100 pesos m|n. con mil varas de terreno.

Creemos inutil hacer notar la esplendida posicion y gran porvenir de estos terrenos, situados sobre el boulevard Santa Fe macadamizado, con dos lineas de tramways a la puerta, y a mas, a 300 varas de la estacion Nuñez, F. C. del N, donde paran todos los trenes siempre que hay pasajeros. Estan tres a 20 minutos de la plaza Vict ria teniendo todo genero de comunicaciones en el centro, los hipodromos Palermo, etc.

El consejo escolar levantara en seguida en el centro de estos terrenos un esplendido edificio escolar, que ocupara 2000 varas cuadradas, y que sera notable en su construccion.

La venta se hera al contado, pudiendo el comprador continuar con la hipoteca recibiendo las cedulas al precio del dia de la escritura a estilo de Bolsa.

Los terrenos stan divididos en lotes de 500, 1000, 2000 y mas varas cada uno, habiendo por lo tanto facilidades para todos los bolsillos, pues todos tienen hipotecas, y los compradores podran continuar con ella si les conviene.

Nota importante:—Para comodidad de los señores interesados, saldra un tren expreso de la estacion Central a las 1 y 30 p. m., parando en la estacion Nuñez a 300 varas del terreno.

OTRA—Cualquiera que sea el comprador entregara el 5 o|o al firmar el boleto.

Por planos y otros detalles a nuestro escritorio, Reconquista 160.

The market was in a spasmodic mood today. The gold premium tumbled in the morning and jumped back in the evening, and nobody knows how matters really stand with such terrible oscillations. The first price to-day was 157, after which the rate tumbled like lightning to 155.50, but later on reacting, closed at 157 with buyers. As for the stock market, it looks fairly firm, although National Bank Shares, after spurting up to 259, have fallen again to 257.50. Many parties think stocks fully up to their value at present quotations, but the tone of the market is most decidedly for advance, and it is more than probable that quotations will shew improvement when paper, abnormally tight for the moment, becomes easier. The state of the Cedula market is most settled and satisfactory, in spite of apprehensions that the deluging of the market with new series would cause a bad impression. All the series, however, both National and Provincial, are firm, though Provincial O has not yet made its appearance to any sensible extent.

The National Bank to-day gave out the following amounts of gold, by order of Minister Varela;—

Operations in National Bank Shares at the first hour embraced 1,600 for end of month, opening at 258.50, fluctuating between that rate and 258, and closing with sellers at the latter rate; for end of May there was fair demand, and the quotation, after dropping to 261.50, closed at 262. Pobladores Railway stock again put in an appearance to day, after a prolonged absence, as fully paid-up shares, and were disposed of at from 1 to 5 o/o premium; the previous sales of the Scrip were at a discount, which reflects improvement. La Plata Moles again manifested a rising tendency, being done at 140 for cash and up to 146.50 for end of May. Credito Real and Bolsa Bank were quiet and firm; as also Constructors, which find buyers at 131 for cash and 135.50 for end of May. Obligations changed hands at 14.50 to 14.70 for cash and 15 for end of month. In Cedulas, D and E National and M and N Provincial showed most activity, and rates all round were up.

In the exchange market brokers report much doing, and it is said that large amounts have been done as high as 47⅛d. The rates of the market are 47⅛d.-⅜d. London, 4.98-99 francs Paris, and 5 francs Antwerp.

In discounts paper is again very tight and gold not over easy. Pagares are done at 10 o/o. The gold rate is about 9 o/o.

There was considerable anxiety prevailing in shipping circles and the market generally over the disappearance of the Cotopaxi, Pacific steam-packet. The agents here were of opinion that she had gone aground and been unable to get off, as no tidings had been received of her since she transshipped her sanitary guards to the Galicia near Sandy Hook, the guards reporting that the Cotopaxi had then touched three times on a sandbank but without injury. She was due in Valparaiso on 13th April, so that fears as to her safety were not unfounded. The Chilian steamer Magallanes had been despatched in quest of her. As will be seen by following list, she has a large number of passengers on board:—

Mr and Mrs Northcote and child
Miss Tredennick
Miss Lose Innes and nephew
Staff Surgeon Tyndall
Mr A Seeber
Mr A Rogers
Colonel Huelle
Mrs and the Misses Jackson (2)
Dr McDonald
Miss Robilliard
Mr and Mrs Lomax and two children
Mr W Dickenson
Mr J Boutheon
Mr S A Williamson
Miss Walker and nephew
Miss Lomax, nephew, and nurse
The Misses Lifon
Dr and Mrs Middleton
Mr and Mrs Macquand,
Mrs Petit
Mr H Cant
Nine 2nd-class and 49 3rd-class

Since writing the above we learn that the Cotopaxi has anchored at Puenta Arenas, all well aboard, the delay having been caused by colliding with a vessel in the Straits. This news will relieve much anxiety.

We take the following from a late exchange:—

An important sale was spoken of here to-day, being some 2,000 square yards between Calles Victoria, Solis and Avenida de Mayo, for half a million dollars cash; seller Mr. Dionysius Aldao, buyer Dr. Miguel Juarez Celman.

In another column will be found full particulars of the meeting of merchants in the Cafe de Paris to-day. It was very largely attended.

The sale of 200,000 gold Cedulas in one lot effected in the ring to-day was the talk of the market, and we hear that these Cedulas are going to Europe, where there is a ready market for this stock. Several houses are now remitting gold Cedulas.

Mr. Angel Sastre, whose term of office expired yesterday, has again been nominated by decree as President of the National Bank.

Dr. Adolfo Olivares has been named Inspector of the Banco Hipotecario de la Capital. The Minister of finance is to fix his salary.

It was said to-day that the Terrason frozen-meat establishment is about to be sold, intending purchasers to put in tender before 15th of May and deposit 20,000 m/n in National or Provincial Bank to show "bona fides." A "sinqua non" condition of sale will be the carrying out of the lease recently made in favour of Mr. Nelson, who has a similar establishment at Zarate.

A joint-stock company styled the Sociedad Exportadorn Argentina, with capital of two million dollars, has been started in La Plata; Dr. Antonio Gil being president and Messrs. Pividal and Cisneros vice-presidents. The sphere of the company's operations will embrace principally purchase and sale of produce, advance of funds to farmers, building deposits, &c.

Mr. Campbell Ogilvie, deputy-chairman of the Anglo-Argentine Land Company, was welcomed to-day on his arrival from Europe. It is eighteen months since Mr. Ogilvie was in the Plate, and his frequent visits to the Plate afford an example that might be followed by other directors and chairmen of Argentine companies in London. Mr. Ogilvie goes up to Paraguay in a few days.

Col. Heyworth, chairman of the Anglo-Argentine—ex-Central Argentine Land Company, is on his way out to the Plate. He is expected in the R.M.S. Atrato.

Business at the second hour was quiet and only remarkable for the falling off in National Bank shares which, opening at 258½, closed rather weak at 254½, and at 261¼ for end of May. La Plata Moles advanced still further to 143½ for end of month and 147 for end of May, but Pobladoras railway shares declined to 103. The other stocks, including Cedulas, were firm. A good deal of attention was centred in the sale of 200,000 gold cedulas Serie A national at 84¼.

"We have received from Messrs. Macrorie and Thompson, of Edinburgh, an interesting statement of the operations, &c., of the Scottish-American Cattle Companies in 1888, from which we take the following figures:—

	Herd		Sales	
	1888	1887	1888	1887
Prairie...	83,970	90,541	10,335	8,863
*Texas ...	90,455	95,850	16,080	9,662
Hansford	28,300	28,160	3,777	2,099
Arkansas.	19,542	22,000	2,905	2,211
Pastoral..	50,511	51,427	5,881	5,091
Western..	25,266	30,209	2,012	1,874
Cattle Ranche	16,763	16,050	1,408	1,248
Swan.....	50,000	56,856	5,087	5,676
Western Ranches..	13,474	12,298	2,980	1,013

*Herd excludes 6,452 horses and mules, as against 6,506, in 1887

"In 1887, no dividends at all were paid, and in 1888 only the Matador gave 2s. per share, the Hansford 3 o/o, and the Western Ranches 5s. per share, the rest giving nothing. It will be seen that the companies fared a little better than in 1887, for last year small dividends were paid by three undertakings, whereas in 1887 all were in the non-dividend list. This improvement appears to have been mainly due to the higher prices realized, but the differences in this respect are very peculiar, for while some companies obtained prices twice as high as in 1887, others only secured a slight advance, and in one instance a decline is recorded. As the heavy debit balances show, a number of companies are still in very low water."

Advices from San Pedro are of the most favourable tenor, following almost on the heels of the despairing note of the farmers who lost so heavily in flax and wheat for the last two years. Now, however, the maize crop promises to compensate for all, and the farmers are encouraged to put even more land than formerly under cultivation. The 35,000 hectares sown this year with maize are calculated to give 1,200,000 fanegas, which at the market rate of 2.35 m/n the fanega means a round return of some 3 million dollars, of which 2½ millions will remain in the partido.

In Chivilcoy the want of farm hands is severely felt, as of the 600 asked for from the Immigration Department only about 50 have as yet arrived. The Provincial Bank branch has granted 174,300 dollars in discounts, being about a third of the aggregate amount asked.

In Chascomus the sale is reported of Mr. John Gorlero's "matadero" and "corrales" with all the stock and accessories. The buyers are Messrs. Casalius and Gomez; price kept in reserve.

Bravo McNamara! "This is the name of the first of the Irish immigrants per s.s. Dresden who sent money home to the old country. He is scarcely a month in employment and yet he has been able to make a small remittance to his wife in Limerick, and still there are people in Buenos Aires, and clever people too, to tell you that this is no country for English-speaking settlers, when we have steadfastly maintained that for any honest, hardworking man, no matter what be his calling in life, there is no finer land under the sun. As for "knocks-about or "general liquidators," they had better go farther and fare worse.

De un esplendido area de campo flor en el partido de Ranchos, estancia conocida por de Thorp, el Monte Cuadrado y las Azoteas 2295 hectareas alumbradas, con poblaciones montes de inmediato a las estaciones del F. C. del S., Jeppener, Altamirano y Alegre, base infirma 140 $ hectares, vale triple, con 150,000 $ cedulas serie A oro. En nuestra casa Alsina 482.

El Jueves 9 de Mayo,
A las 2 p. m.
Remataremos por cuenta y orden de su propietario a condiciones que se estipularan mas abajo; el recombrado establecimiento de campo conocido por La Azotea y Monte Cuadrado, antes perteneciente a la testamentaria de Thorp ubicado en el partido de Ranchos a una y media legua de la estacion Jeppener e igual distancia mas o menos de las de Altamirano y Alegre; campo flor perfectamente alambrado con 6 hilos, postes de Randaby, y las poblaciones Monte Cuadrado de 8 piezas de material techo de teja, monte de arboles frutales y otras; hay ademas alguna arboleda donde existian antes puestos que hoy son taperas; la poblacion de la Azotea se compone de 3 piezas de material con techo de teja, alambrado de primer orden con tranquera al camino general.
Es campo inmejorable para invernada de hacienda lo mismo que para agricultura y formacion de un centro agricola, por tener tres estaciones del F. C. del Sud á tan corta distancia; es a no dudar una de las areas de campo que mayor porvenir ofrecen, ya sea para explotarse personalmente o para la especulacion, pues dentro de muy poco tiempo valdra mas del triple de su actual precio, haciendo la fortuna de quien lo adquiera.
Para que los interesados puedan visitar esta propiedad, habra todos los Jueves y Domingos un coche en la estacion Jeppener para llevar los interesados.
Con el fin de realizar la venta de su propietario actualmente en Europa, ha fijado para el objecto una base bajisima, pues nosotros reputamos que actualmente vale mucho mas que 140 ps. la hetarea por cuyo precio se vendera siempre que haya postores.
Esta alhaja se puede adquirir con muy poca plata, haciendose cargo el comprador de la hipoteca que reconoce 150,000 ps. oro de la serie A provinciales.
Llammos la attencion de los especuladores sobre esta esplendida propiedad.
Planos y pormenores se obtienen en nuestra casa Alzina 482.
